Among those who succeeded in getting a deer in Pocahontas county during the open season were C. J. Richardson, Orville Dilley, Cliff Sharp, Amos McCarty, James McCarty, D. H. Humphreys, Frank McLaughlin, Kessle Moore, Cecil Carr, Henry Waugh, Lee and Marion Sharp and a party from Princeton, in the Marlin and Thorny Creek ranges; Jack Townsend, Lock Herold, Bill Bowers, Elmer Moore, Letcher Sharp, John Kelly, Creamer Sharp and a party from Huntington, in the Alleghenies; Fred Hefner and F. W. Tutwiler, on the Beaver Lick; George P. Edgar, on Cranberry; C. C. Riddle Jake Mullens, a party from Sutton, a party from Mullens, and a party from Monroe County, on Williams River; Earl Kee, on Elk. In addition to the above thirty deer, there were some twenty odd killed on Elk. Bears were killed by Jake Mullens, Paul H. Price and Dr. Johnson.

Since the above was written, the report comes of Samuel Sheets killing a big buck on the Allegheny; M. C. Smith one in the Levels District; A. J. Cook's party two; Espy Wilfong one near Dunmore.

Thirty deer were killed on Elk.
Most of these fell to hunters from
outside of the county. Only four of
this thirty are given in the above list

and Harry E. Johnstone.

There were fifteen deer shipped out of the county on the Richwood railroad. None of these deer are in the above list.

Middle Mountain on Elk, Gauley, Yew, Black, Tea Creek, Alleghanies, Lockridge, Marlin and Thorny Creek Mountains furnished nearly all the deer killed.

The deer are again in the forests of many of our mountains. In the open season four years ago some forty deer were killed in Pocahontas. Nearly a half of these were killed on lands which are now the Seneca Forest. The increase in the number of deer in four years has been truly remarkable. But then the fawn of four years ago is a grandmother now.

If the Game Commission desires an opinion, it is that Pocahontas County be given a five or ten day season on deer each year. The bucks that are killed do not affect the natural

ago is a grandmother now.

If the Game Commission desires an opinion, it is that Pocahontas County be given a five or ten day season on deer each year. The bucks that are killed do not affect the natural increase. The open season creates a lively interest on the part of the average citizen in communities where there are deer, and a healthy public sentiment is quickened for the protection of does and small deer and against all hunting out of season.

At the Kiwanis Club last Friday night the speech was made by Miss Edna Howard of Beckley. She is district home demonstration agent, under the Extension Department of the University. She spent the week in Pocahontas county, assisting in and inspecting the work of the 4 H Clubs. Miss Howard made a most interesting speech upon what the luncheon clubs, and particularly what Kiwanis are doing and can do to help

Squirrel season opens next Friday, September 28. Except along the eastern border of the county, there are no squirrels in Pocahontas this year. Last year they were here in unusual numbers. All fall long they were seen traveling toward the east. There was no mast here. About the first of the year squirrels were no longer to be seen. There is such a big crop of nuts in Pocahontas this year that it is thought the squirrels will return some time this fall.

wanted in West Virginia, New Mexico and ether states.

A doe deer was seen in the village of Buckeye Sunday. Hounds had run it in. The hounds were stopped, and the deer found safety in the nearby woods.

There will be a community song service at the Hamlin Chapel Church at Onoto next Sunday night, Nov. 27 at 7:30 o'clock. Every body welcome.

Seneca Theatre

the depredation. Some of the carcasses were covered up. A panther was seen last summer just across the mountain from where the sheep were killed.

Layman and Reed Davis saw a fine big doe on the Jericho Flat, about a half mile from the county bridge last Saturday. The young men were rabbit hunting and came upon the deer. This is the first time in thirty years since a deer was seen on this ridge.

caught a coon in a trap last Friday night which was as large as three ordinary coons. The carcass, after skinning, gutting and having the head and feet cut off, weighed just thirty one pounds, this statement being vouched for by S. G. Dodrill, of Bergoo, who also states that the hide measured three feet and four inches from end of nose to tip of tail. The gross weight would probably have been more than forty pounds. A coon was caught in Pocahontas county some months ago which tipped the scales at thirty-six pounds, gross, and was heralded by the Pocahontas Times as the largest known. Now, however, for a season at least, Webster will claim the biggest coon, while Greenbrier, Monroe and Pocahontas scrap it out over the heaviest hog. What's a hog, anyway? We'll take care of that
